PRODUCT DESCRIPTION

Bolli Bianchi

BOLLI BIANCHI is a really special type of flooring that offers a unique aesthetic effect.
Ideal for paving shops, nightclubs, restaurants and anywhere you want to get a truly modern setting: its neutral colors (black and white) leave the designer free to add furniture of any color including very bright shades.
The visible surface of BOLLI BIANCHI consists of spheroidal elements of real white Carrara marble embedded in an intense black cement background.
The material is supplied honed and it has to be honed and filled after instalaltion such as marble.
"AT": White Carrara pebbles rounded diameter. mm. 15/30.
"BT": White Carrara pebbles rounded diameter. mm. 30/40
