PRODUCT DESCRIPTION

Decoration Tile (cm. 20x20)

The solid color decoration tiles cm. 20x20 are the most classic ones you can find in our range of indoor products.

Made with marble microchips and with marble pastina are the solution adopted for interioris in the

1920s and nowadays widely reconsidered for the renovation of historic palaces and villas.

It consists of double or mono layer ranging from a thickness of cm 2 to only cm 1,2.

This section shows only some of the most used decorations.

Do not hesitate to contact us to know the countless possibilities we can offer.

Please note that all designs can be made in both CHIPS and PASTINA tile combining various colors!
