PRODUCT DESCRIPTION

GRAMAR

GRAMAR is a very high resistance to wear and tear terrazzo tile, also used for heavy traffic areas.

It's ideal for supermarkets, banks, hotels, airport service areas, schools, offices, hospitals and restaurants floorings.

The upper surface is made of a high percentage of granite, quartz, porphyry chips where colors and chip size have been carefully studied and mixed to obtain aesthetic and wear resistance results very close to those of natural granites.

It is recommended to carry out honing and polishing on site with the proper machine suitable for granite.

Average test results:

- Abrasion (tribometer): mm 2,3
- Bending: Kg/cm² 70
- Impact tests: 55 cm
- Guaranteed frost resistant
