PRODUCT DESCRIPTION

Choose, propose and work stone ? an art that requires knowledge, experience and deep sensitivity?
to the natural element.

Strong of its long tradition developed since 1923 in building materials sector, Mattoli presents the timeless charm of Marble and Granite that, chosen and worked in harmonious correspondence with the surrounding habitat, expresses its natural physical energy and seductive aesthetic value.

Designs, shapes, colors, that the nature proposes in infinite variety? Of lights.

The MARBLE, the GRANITE, the STONE always represent the most important in the world. prestigious, comfortable and rational solution for Building and Furniture elements.

Due to their technical characteristics they are insensitive to the most demanding uses. Strict, they are easy to maintain and offer their timeless beauty over the years.

Mattoli has been working MARBLE, STONE and GRANITE for generations. a great experience that has allowed the attainment of a production on industrial scale, founded on the application of the techniques more? advanced

Our materials, coming from the best Italian quarries and from many countries of the five continents, are supplied in an infinite range of colors, cut and finished for every need of flooring, wall cladding, stairs, thresholds and for any other need? architectural.

Some years ago we have included in our range of products a number of QUARTZ BASED AGGLOMERATES available in many colors. These products are more and more? widely used for kitchen or bathroom tops and for furnishing elements in public establishments or, finally, as flooring or coatings to replace natural products. The main feature that makes them preferred ? poor absorbency.

We will be pleased to show at our factory the wide range of colors and types available.
