

the Marble

Booklet 2014

since 1923

*The BOOKLET 2014 printed by MÁTOLI is a tribute to all the people's work
who came across our company in the last year.*

*The projects shown are expression of enlightened brains
that make their ideas and dreams available
to create unique and sole locations.*

*This collection has the task of posting on a piece of paper
(and on the heart of readers)
their memories such as the diligence and labour used to realize them
with a noble purpose that exactly matches our company's Mission.
The aim is to share our realization with anyone interested
in order to get a continuous improvement
on the finishing, shapes, design and last on the human Habitat that convey
the improvement of everyday life to anyone who will chance on us.*
